INDUSTRIAL VISIT REPORT 2023-24**

Introduction

An industrial visit was organized for students from the **Department of Electronic Science, TYBSc 05** Students to Morde Food Industries on **22nd April 2024**. The objective of the visit was to provide students with practical exposure to the food manufacturing sector, understand industrial processes, and observe quality control measures in action. Morde Food Industries, a prominent player in the food products sector, specializes in manufacturing chocolate, confectionery, and other food ingredients.

The company is known for its commitment to quality, innovation, and sustainability. Its product range includes:

- Chocolate compounds and couverture
- Cocoa powders
- Fruit purees
- Confectionery items

The firm exports its products globally and serves a diverse clientele, including bakeries, hotels, and ice cream manufacturers.

Objectives of the Visit

1. To gain insights into the food processing and manufacturing processes.
2. To understand the quality assurance and control mechanisms implemented by the industry.
3. To observe the latest technologies used in food manufacturing.
4. To foster industry-academia collaboration.

Conclusion

The visit to Morde Food Industries was highly informative and provided valuable insights into the food processing sector. Students gained practical knowledge of production processes, quality control measures, and the importance of innovation in maintaining competitiveness.

Such industrial visits not only enhance students' understanding of theoretical concepts but also inspire them to explore careers in food technology and manufacturing. The collaboration between academia and industry is crucial for nurturing future professionals equipped with the skills necessary to excel in the field.
