INTRODUCTION:

The Geography is concern with study of nature and natural phenomenon. Field visits are useful for cross verification of the things which are taught in classroom. By keeping this motive Department of Geography always organizes such field visits in accordance with University. For academic year 2025-26 department has organized a Field Visit at Bhimashankar Sanctuary

KEY OBJECTIVES:

1. To identify the erosional features of upper course of Bhima river basin.
2. To learn Orientation of Toposheets, Observation and Identification of Geographical Features with the help of contours
3. To study flora and fauna about Bhimashankar Sanctuary
4. To learn preparation of a Brief Report.
5. To earn extra credits which are specified by the university.

PROGRAM OVERVIEW:

Department of Geography always conducts various student centric activities for enhancing the teaching learning process. On Saturday, 13rd of September a team of 54 students from SYBA 32 and TYBA 22 students and 3 faculty members are visited to Geographical site at Bhimashankar.

Early in the morning at 8:00 o clock we have started to travel by bus. We have successfully reached at our pre planned destination. On the top of Bhimashankar hilly region we have oriented the Topo Sheet and stated the observation of Geographical features such as Cliff, Slope, V shaped valley ,terrain and topography of such a land form explanation by the contour interval of SOI toposhet also we informed students about erosional work of fluvial water in the upper course of Bhima river basin . We observed the wonder of nature Pot Holes which are formed by the drilling

of rock bed of river by the action of water and captured pebbles rounded movement. Also Student's observed varies feature of river basin like water falls canyons gorge, entrenched menders and potholes etc, After completion of first task students observed flora and fauna of nature vegetation various birds and wild animals etc.

This Filed visit was organized by the permission of Hon. Principal Dr. N.S. Gaikwad under the supervision of prof. Mindhe V.R., Head of Department of Geography. Dr. Kathe M.H. Prof. Barde A.B. has completed field visit by supporting and guiding student on filed. After completion of visit students have prepared a brief report on visit and they have submitted it for practical exam.

At College

At Bhimashankar Temple

At Bhima River Basin observation of landforms

Summary:

Three faculty members and 54 students were visited the Geographical site at Bhimashankar sanctuary. During this visit students have observed the Geographical feature such as Topography, Drainage Pattern, Vegetation, topography of land, erosional work of running water . Students have prepared a neat report on visit under the guidance of respective subject teacher. In short this filed visit was very useful for students to understand the Geographical Phenomenon.
