DEPARTMENT OF MATHEMATICS

2025-26

Study tour report

The Department of Mathematics organized a two-day educational trip on 24th and 25th February 2026. A total of 8 students participated in the trip, including 5 students from F.Y.B.Sc and 3 students from T.Y.B.Sc. Two teachers also accompanied the students and guided them throughout the trip. The trip was well planned and full of learning, devotion, history, and enjoyment.

Day 1 – 24th February 2026

The trip started early in the morning with visits to two famous Ashtavinayak temples. First, we visited Shri Varadvinayak Ganpati Temple at Mahad. All students took darshan peacefully and experienced the calm and spiritual atmosphere of the temple. After that, we visited Shri Ballaleshwar Ganpati Temple at Pali. The students offered prayers and felt positive and energetic in the holy environment.

Later, we visited the hot water springs at Unhere Hot Water Springs. The natural hot water springs were a unique and exciting experience for everyone. Students enjoyed observing this natural wonder and learning about its natural formation.

In the evening, we reached Diveagar, where we stayed overnight. Diveagar is known for its beautiful beach. Students enjoyed near beachside and spent quality time at the seashore. The peaceful environment and cool sea breeze made the evening very refreshing.

Day 2 – 25th February 2026

On the second day, we traveled to Dighi Port. From there, we took a boat ride to visit the famous Murud-Janjira Fort. Murud-Janjira Fort stands strongly in the middle of the Arabian Sea. It is known as one of the strongest and unconquered sea forts in India. The fort has high walls and strong gates which show excellent architecture and planning. Inside the fort, students saw a **sweet water lake** (freshwater pond), which is very special because it is located in the middle of the sea. Even though the fort is surrounded by salty seawater, the lake contains fresh water. This amazed all the students. We also saw the famous Kalalbangadi cannon, one of the largest cannons in the fort. The cannon shows the strong military power of that time. Students were excited to learn about the defense system and history of the fort. The visit helped students understand the bravery, planning skills, and historical importance of the Maratha period.

After visiting the fort, we went to Harihareshwar Temple. Students took darshan and enjoyed the beautiful sea view around the temple. Harihareshwar Beach is naturally formed by the seashore and surrounded by hills on three sides. The beach has soft sand and clean water. The waves of the Arabian Sea continuously shape the shoreline, making it beautiful and attractive. Students enjoyed walking along

the beach and observing how the sea waves slowly change the shape of the coast. The sea breeze, natural beauty, and peaceful environment made it a relaxing experience. The natural beauty and peaceful surroundings made the visit memorable.

Conclusion:

The two-day trip was successful and meaningful. It gave students a chance to experience spirituality, natural beauty, and historical knowledge. The trip also helped students to relax, build friendship, and create beautiful memories together.

Overall, the educational trip was informative, enjoyable, and unforgettable for all 8 students of the Mathematics Department.
