Outcomes of the workshop with details:

- 1) 133 stakeholders (81 teachers affiliated to SPPU, 02 teachers from other universities, 25 students and 25 junior college teachers) were benefited from the workshop.
- 2) The participating teachers were sensitized about the proposed changes in curricular framework for Four Year Undergraduate programme proposed by NEP 2020.
- 3) Teachers were oriented to their role in meeting the expected graduate attributes through in and outside classroom interventions.
- 4) Teachers were sensitized regarding the role of curriculum design, planning of outcome based assessment and promotion of placement in meeting the goals of NEP 2020.
- 5) Participants were encouraged to contribute an article on the core theme of workshop to develop deeper understanding about the vision of NEP 2020.
- 6) Selected papers are published in the form of e-book entitled "Implementation of New Education Policy 2020: Adaptation of Guidelines on NHEQF & Curricular Framework & Credit System for Four Year Undergraduate Programme (FYUP)".

Opportunities:

- 1) Academic and administrative autonomy to the institutions.
- 2) Collaborating with international standard institutes and foreign universities.
- 3) Promotion of equality, accessibility, and inclusiveness in education through ODL.

- 4) Identification of vocational courses based on local needs to promote employability.
- 5) Involvement of teachers in development of e-content in regional languages on SWAYAM Platform.
- 6) Development of new interdisciplinary and multidisciplinary courses based on futuristic trends in education and employment.
- 7) Incorporate the knowledge resources from other religions as a part of Indian Knowledge system.

Problems raised during the workshop for implementation of NEP:

- 1) Non-allocation of sufficient resources by government to ensure the successful implementation of NEP 2020.
- 2) Increased financial burden on students and their parents after the financial autonomy of the HEIs.
- 3) Digital divide and the accessibility of technology to students from economically weaker sections of society will affect the potential of technology to enhance learning.
- 4) Increased financial burden on students and their parents after the financial autonomy of the HEIs.
- 5) Promotion of professional programmes through ODL mechanism will affect the outcomes at social level.
- 6) Problem in students' registration of ABC portal especially for married female students who have changed their name after marriage may affect the implementation of credit accumulation and exchange.
- 7) With individualized course combinations, how the face-to-face classroom interaction could be made effective with limited infrastructure.

Challenges for implementation of NEP:

- 1) After the implementation of multiple entry and exit provision, retaining the students will be challenge for HIEs in rural and tribal areas.
- 2) Making sustainable development for financially autonomous institutes in rural and tribal area.
- 3) Self-supported learning will be a challenge for students from weaker sections of society and tribal students.

Overall suggestions:

- 1) Students and parents' centric awareness programmes need to be implemented.
- 2) Teachers' empowerment programme/FDP need to be organized to train them in curricular design and outcome based assessment of students.
- 3) Regular recruitment of teachers to keep the students-teacher ratio below 20.
- 4) Approve the changing workload resulting from the restructuring of the programme.

Subject: Invitation as a Keynote Speaker for One Day International Seminar (SECMM-2022)

Dear Sir,

We are elated to announce that the Rayat Shikshan Sanstha's, Annasaheb Awate College, Manchar, is organising one day international seminar on the topic "**SOLAR ENERGY CONVERSION: MATERIALS & MEANS (SECMM-2022)**" for students, research scholars, faculty members in Universities/Colleges/Institutes of Higher Education and Industry Delegates. The programme will be organized on **Thursday, 29th September 2022**.

Based upon your outstanding contribution in this field and as you are one of the renowned speaker, your deliberation and participation will surely benefit the participants. On behalf of organizing committee, it gives me an immense pleasure to cordially welcome you as a **Keynote Speaker** and guide the young budding scientists. Your early reply will be appreciated!

The primary objective of the conference is to empower and motivate the stakeholders from the remotest parts to enliven the learning process and keep updated in recent advancements in the aforementioned topics.

Looking forward your positive response.

Thank you.

Dr. Ashok Joshi's Entrepreneurial activities can be summarized looking at his 8 Spin Off Companies.

- MaxTek – Long life oxygen sensors
- Microlin – Control release technologies
- Activ O – Back pain relief device
- LoTek – Low thermal expansion ceramics
- Aplion – Positive pressure drug delivery
- Kalypto – Negative pressure drug delivery
- Shunt Power – Iontophoresis drug delivery
- Technology Holding – Synthetic Biology

Previous Mentoring Experience -

Achievements and Honors:

1. Ashok Joshi is a well-recognized innovator and high-technology entrepreneur.
2. Joshi has developed several technologies in the Energy, Environmental and Biotech fields.
3. Joshi is on the Board of MIT, Pune, with responsibility to take the University to global level and recognition.

About -

Doctorate North Western University
Post-Doctoral fellow Pennsylvania University
Technopreneur, investor, philanthropist, Scientist, and Prolific Inventor
Founder and President Microlin L. C.
Ex. Owner and Ex President Ceramatec Inc
Director at Technology Holding LLC, located in Salt Lake City, Utah, USA.
Past Board Member Industrial Research institute , Arlington, Virginia

About 2 decades ago, internationally acclaimed scientist Dr. Joshi told himself, 'Giving back will give me the biggest happiness.' He started in India at first, funding a mobile library that relied on people with bicycles to rotate books weekly between 21 schools in rural villages. From there he began building and expanding schools, including one in Wai that serves mentally-challenged children. Dr. Joshi says, "These children are not getting learning opportunities. Well, that's not acceptable to me. Those children are God's children. I did what I could."

What began in India, spilled over into Dr. Joshi's involvement locally with colleges and their students whom he still mentors today on an individual basis. He has funded trips for students in Salt Lake City to India to help out in schools and villages, including with women for whom he helped start small businesses with microloans. He is also engaged actively in many charitable, educational and societal development endeavors, both in his home town Utah as well as in India.

Dr. Ashok Joshi returned to USA in year 1984 and took a job of an engineer in Ceramatec Inc. He progressed rapidly and in year 1996 he was CEO of the company.

As a CEO, he realized that everything was not right in the company. The company faced too many problems and often landed into troubles. There were too many lay-offs and far too many appointments. Dr. Ashok found that under the control of the then Board of Directors, the company can never function profitably. He advised the Board that they should mend their ways or sell off the company. Though Dr. Ashok was confident that he can turn around the company, the board was not. The Board told Dr. Ashok that they want to sell off the company. Dr. Ashok was given assignment of finding a right buyer. Unfortunately there was none.

Being very confident of what he can do, Dr. Ashok found an investor who had full faith in Dr. Ashok's capability. In year 1999, Dr.

Webinar Report on Robotics & Its Application in Real-Life

2022-23

Department of Electronic Science, Annasaheb Awate Arts, Commerce & Hutatma Babu Genu Science College Manchar, Pune organized a State Level Webinar on **“ROBOTICS & ITS APPLICATION IN REAL LIFE”** for students and staff from other colleges also. The Webinar was held on **18th October 2022 at noon on Google Meet.**

Respected, **Dr Shaikh, Assistant Professor, Department of Electronic Science, New Arts, Commerce and Science College, Ahmednagar** was a Resource person. The Webinar began at noon in the presence of all the members of the Electronic Science Department. The objectives of the webinar were to learn about Parts of Robot and their application, and the current research trends in it.

The webinar was hosted by Ms Afroj M Dange, Assistant Professor at the Department of Electronic Science, also with a brief introduction of the Chief Guest who welcomed all the participants.

The Webinar witnessed active participation from Electronic Science students from our college and other colleges also. Nearly **153 Participants** joined the Webinar virtually.

Dr. Shaikh Sir delivered his presentation on **ROBOTICS & ITS APPLICATION IN REAL LIFE** he started the session with ppt showing how sensors are placed on Mars to collect data. He gave information about the various parts of Robotics. He discussed the types of details of robots, and sensors about the various standards of sensors. He also explains all types of sensors and actuators.

The session was very informative. They discussed areas that were of great benefit to the participants as the topic was very much relevant to the current scenario and working domain. Participants were enlightened with the most widely used advanced technologies in this domain. The Webinar ended with a Questionnaire session followed by a vote of thanks. Feedback for the session was also collected and E-certificate was distributed to all the active participants.

Our Head, Mr.S.A.Belage addressed participants in a presidential speech.

The session ended with a vote of thanks. Ms J B Khilari proposed the formal vote of thanks.

Outcome:

These 65-minute webinars provided great benefits for participants in ROBOTICS fundamental concepts and how to accelerate Robotics as well as the technical consideration for successfully developing and implementing Robotics solutions.

Sub: Invitation as a Resource Person in the Webinar

Respected Sir,

Concerning the subject mentioned above, the Department of Electronic Science of our college is going to organize the Webinar. We are honored to invite you to be the Resource Person in the Webinar on **"ROBOTICS and Its Applications in Real Life"** Our event is to be held on **18th October 2022** via online mode at **11.30 am**.

We know you are a terrific speaker and we're confident that our audience will benefit greatly from your lecture. We'd be grateful for your time and knowledge about this webinar.

Thanking you.

Dear Sir,

Thank you very much for delivering an informative & thought-provoking lecture as a guest speaker in the Webinar "**ROBOTICS and Its Applications in Real Life**" held on 18th October 2022 at Annasaheb Awate Arts, Commerce & Hutatma Babu Genu Science College, Manchar, Pune via online mode.

It was an excellent presentation that provided students to field practice. Your point of view on the issue was appreciated by all students, and they benefited from it.

I appreciate your contribution, time, and efforts in delivering the speech once again.

Thank you.

Introduction:

The Dhingri mushroom is one of the most suitable fungal organism for producing protein rich food from various agro wastes without composting. Dhingri mushroom can be grown in the plains and in temperatures ranging from 20 to 30⁰C degrees centigrade. Mushroom, which is pure vegetarian food, is good for diabetic patients. It also has other medicinal properties. It is good for stomach-related ailments like gastric ulcer and has high fibre content and no sugar. It is also rich in protein. Mushroom cultivation has become a profitable business with the produce fetching good returns in the market.

Market Potential:

Mushrooms are marketed as fresh, dried and preserved. Market for mushrooms is growing rapidly because of their nice aroma, subtle flavour, nutritious values and special taste. Many exotic preparations are made

from them like soup, pickles, vegetables etc. It is also used for stuffing several food preparations and for garnishing. But its consumption is still confined to urban and semiurban population. Mushrooms have very short life after harvesting and hence they are sold in fresh form. Their shelf life can be enhanced by processing them. Processed mushrooms are packed in special quality polythene bags or canned. This variety can be sold to far off places. Mushroom cultivation has been declared as a major thrust area by Govt. of India. However there is huge demand supply gap. Mushroom dish is a common item in all the big hotels. Day by day there is continuous increase in the demand of mushroom which denotes that there is huge market potential in near future.

Opportunities:

- Mushroom production provides an ideal opportunity for conversion of agro-waste into wealth, quality food and organic manure and leads to high range of reduction in environmental pollution.
- Mushroom being an indoor crop provides vast opportunities for empowering rural and urban women through cultivation, production of value-added products and marketing. It also provides vast opportunities for unemployed youths to take up mushroom cultivation and marketing.
- Mushroom provides an opportunity to eliminate protein malnutrition among people having cereals as staple food.
- India attaining self-sufficiency in food production, the domestic market of mushroom is likely to enlarge sooner than later.
- The collaborative arrangements of government institutions with nongovernment organizations, self-help groups and corporate sectors for processing, manufacturing of value-added products and marketing of mushrooms.
